

Colombia

Forests: 52% of the national territory

Protected areas:
+30 million Ha.

Biodiversity: Second most biodiverse country in the world

Amazon Region: 35% of Colombia's territory

Total Area: 1.141.748 km

Oceans:
Pacific and Atlantic

Source: Ministerio de Ambiente y Desarrollo Sostenible.
Sebastián Ramírez - Inventario Forestal Nacional Amazonía

Colombia is one of the few countries in the world with great potential to expand its **agricultural frontier** without affecting any natural forests. **Only 8 out of the 40 million hectares available are currently used.**

Leticia Pact for the Amazon

Artemisa Reforestation

Voluntarily signed zero deforestation agreements

Paisaje Palmero Biodiverso (palm oil)

Reincorporation process (cocoa)

Manos al Agua (coffee)

Colombia is a country with an **agricultural vocation**.

Colombia has a series of **actions that prove its commitment to the environment**

Access to international markets is key to the livelihood of many rural families and for the creation of real opportunities for many farmers

Thank you

COLOMBIA
