Employees

There are 44 work posts in Forest Research Station, plus, as well, seasonal employees for nursery are hired.

- Kalsnava unit:
 - ✓ Head of division
 - ✓ Foresters (3);
- Jelgava unit:
 - ✓ Head of division
 - ✓ Office admin;
 - ✓ foresters(5);
- Smiltene unit:
 - ✓ Head of division
 - ✓ foresters(3);
- Scientific experimental nursery
 - ✓ Head of division
 - ✓ Deputy head of division
 - ✓ Technical employees (2)
- Forest Seed Control laboratory
 - ✓ Head of division
 - ✓ Expert

Framework of actions

Main functions of Forest Research Station:

- Ensure support for science and education, as well as for set up and maintenance of scientific objects, environmental and forest monitoring objects;
- Ensure support for forest related practical education;
- Ensure forest management in the forests under FRS responsibility.

Additional action:

- Forest Seed control laboratory

Activities are implemented in accordance with every year Forest management Plan.

Forest management *conventional*

Sustainable and rational forest management in accordance with our goals and mission.

There are auctions organized to sell «on stump» felling areas/felling volume to our partners.

Forest management *conventional*

Ongoing investments are planned for forest road network development and maintenance. Amelioration systems are reconstructed as well.
