

Enhancing resilience in response to climate change and increased disturbance risks

RESONATE advanced the knowledge on **forest resilience** and **resilient forest value chains** in European forests

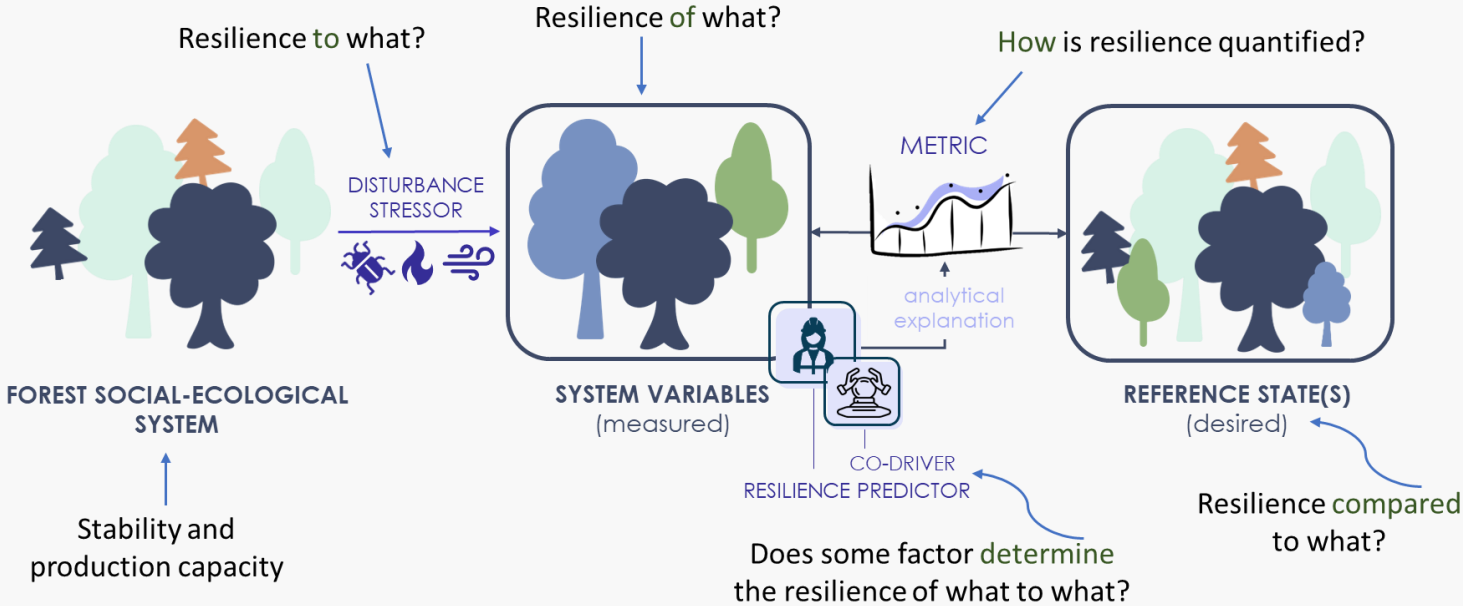

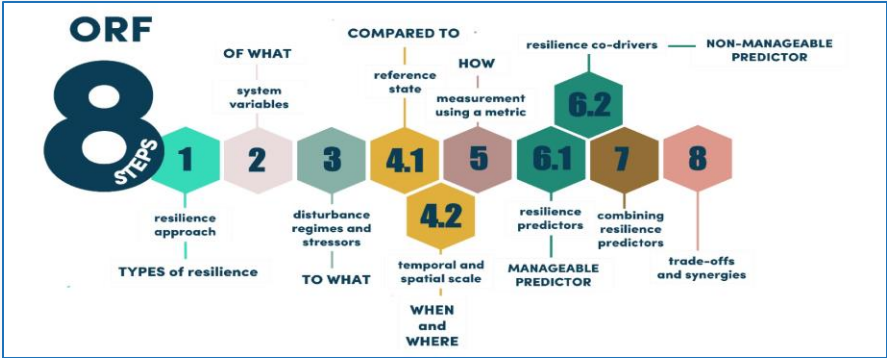

Patacca et al. 2023. Significant increase in natural disturbance impacts on European forests since 1950. Glob.Ch.Biol. 29, 1359-1376. Graph: Policy Brief 4, European Forest Institute, <https://doi.org/10.36333/pb4>

RESONATE: Resilient forest value chains – enhancing resilience through natural and socio-economic responses. Horizon 2020. Project no. 101000574, April 2021 – March 2025.

Operational Resilience Framework (ORF)
